## Stay Home When Required to Self-Isolate

When you self-isolate, you stay home and keep away from others to help stop the spread of COVID-19. You should self-isolate if:

- You have symptoms of COVID-19.
- You are a close contact of someone with COVID-19 and you are not fully vaccinated.
- You have been asked to self-isolate by public health or because of recent travel.

For more information on self-isolation and self-monitoring, please visit the [BCCDC webpage on self-isolation](#).
